BT

1. (Amended) A method of manufacturing an organic EL element, comprising the
steps of:
forming pixel electrodes on or above a transparent substrate;
forming [on said pixel electrodes by patterning] at least one luminescent layer having
a certain color and made of an organic compound on or above predetermined pixel electrodes
in the pixel electrodes by patterning, said at least one luminescent layer including a plurality
of pixel luminescent layers respectively provided on or above the predetermined pixel
electrodes; and
